Technical Bulletin

Product: Solarfast LWN

Description: Specialty lawn paint for grass, turf and divot sand.

Solarfast LWN is a specialty pigment formulation engineered specifically for grass and turf. It is ideal for golf courses, athletic greens or the homeowner's lawn. Solarfast LWN is non-toxic and non-hazardous. It is environmentally friendly and will not harm grass, plants, animals, or humans. Solarfast LWN is easily applied with most light or heavy duty sprayers.

Before
(Solarfast Green LWN shown in example.)

After

Applications:

Solarfast LWN is an environmentally friendly grass or turf paint that can be used in a variety of applications. Solarfast LWN is regularly used by the following:

- 1.) Homeowners for freshening up dormant grass, or during times of drought.
- 2.) Athletic Fields – Perfect for football or soccer fields. Or use different colors to paint a team logo.
- 3.) Divot Sand – Solarfast Gold LWN is used to color Divot sand for golf courses at a rate of 1 gallon of colorant to 1 metric ton of sand.

Benefits to the product, "Solarfast LWN":

- 1.) High Quality – Our product has been rigorously tested by professionals in the lawn care industry to ensure the quality is the best in the market.
- 2.) Will Not Fade – Once the color is applied properly and allowed to dry, it will not fade for a minimum of 1 month and may last as long as 3 months..
- 3.) Economical – A little bit goes a long way. Dilute at a ratio of 1:10 colorant to water for dormant grass. Dilute at 1:20 for non-dormant grass applications.
- 4.) Works Instantly – As soon as you spray on the colorant the grass will be gold. Once it dries it will remain on the grass blades until it is cut by mowing.

Directions for Usage:

- 1.) Do not wear good clothing. Product will stain clothing like a paint.
- 2.) Shake well before using.
- 3.) Apply when the grass is dry and rain is not expected for at least 24 hours.
- 4.) Apply in the recommended ratios below.
- 5.) Allow 12-24 hours for lawn paint to dry.

<u>Application</u>	<u>Ratio of Colorant to Water</u>	<u>Coverage of Goods per Gallon of Product</u>
Dormant Grass	1:10	Approximately 5,000 square ft.
Non Dormant Grass	1:20	Approximately 10,000 square ft.
Divot Mix	1:1	1 gallon per Metric ton of divot sand

Storage:

Do not let the product freeze. Store in a cool dry place.

Disposal:

Triple rinse empty plastic container and recycle.

Caution

Keep out of the reach of children. Do not take internally. In case of eye contact, flush with large amounts of water and consult a physician. In case of ingestion, dilute with water or milk and consult a physician. Do not re-use this container. Rinse contents into the spray tank and crush prior to disposal. Do not apply to food or feed crops or grain after harvest. A spray shield is recommended for applications if overspray or drift is a potential problem. EMERGENCY CONTACT: CHEMTREC 1-800-424-9300
